### ***Mission Statement***

---

The mission of *Near North Laboratories Inc.* is to be part of the Environmental Solution Seeking Process by providing clients with appropriate information for environmental problems and concerns. The company is determined to satisfy the client's particular needs beyond their expectations.

### ***Profile***

---

Established in 1989, NNL is an independently owned Canadian company. Within our 3900 square foot facility, a dedicated and experienced professional team of 15 is pleased to serve our clients in industrial, commercial, government, agency and private residential sectors. NNL principally provides routine services to ~ 500 drinking water and over 30 wastewater facilities located throughout central and north-eastern Ontario.

NNL staff proudly received the North Bay & District Chamber of Commerce - Nipissing University / Canadore College "Small Business of the Year" (2008) award.

### ***We Thank Our Clients for Over 19 Years of Business***
