# SUPERPAVE GYRATORY COMPACTION – PLANT MIX (Alberta and Yukon)

IMPORTANT NOTE: The preparation of compacted specimens is to the Design Gyration Level only. No compaction to the maximum gyration level is required.

#### 1. PLANT SUPERPAVE SAMPLES (PSS)

Two boxes of Superpave Plant Mix for two different mixes, namely **PSS-I-N for the 19.0mm mix** and **PSS-II-N for the 12.5mm mix** have been provided

# 2. MAXIMUM SPECIFIC GRAVITY (Gmm)

Determine the  $G_{mm}$  of each mix type using D2041. Report the value of each of the two replicates (i) and (ii) to three decimal places.

# 3. GYRATORY COMPACTION

The specimen preparation parameters for this testing are as follows:

	<u> 19.0mm (PSS-I)</u>	<u>12.5mm (PSS-II)</u>
Mass of individual gyratory specimen, g	4950±40	4950±40
Recompaction temperature, °C	137	137
Initial number of gyrations, N <sub>ini</sub>	7	7
Design number of gyrations, Ndes	75	75

For each mix type, prepare two specimens to the *design number of gyrations* 

# 4. BULK DENSITY AND % G<sub>mm</sub> (Compaction Degree)

Prepare specimens, determine the bulk density of the specimens and complete all necessary calculations, *using applicable ASTM and AASHTO procedures*, to obtain %G<sub>mm</sub> at N<sub>ini</sub>, and the % air voids at N<sub>des</sub>.

Report the values of bulk densities to three decimal places. Report the values of %G<sub>mm</sub> to one decimal place

The Gyratory Plant Mix test results shall be reported online and submitted by **2023 January 6**, **Friday**. An example of a completed report form is shown below. Your form will appear slightly different as testing requirements have been changed (Compaction to Nmax has been removed).

**Remember:** Your lab's worksheets must be submitted through the portal with your proficiency report. Please combine all worksheets for each portal report into a single pdf prior to uploading. You are required to keep all original worksheet hard copies in a secure dedicated location such as a sealed envelope that is available to CCIL upon request. Do not courier/mail/fax/e-mail the worksheets to CCIL.

**DO NOT** send reports and worksheets by fax
